

Brownfields 2017 Cleanup Grant Fact Sheet

Michigan Department of Environmental Quality, Bloomingdale Township, MI

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Cleanup Grant

\$200,000 for petroleum

EPA has selected the Michigan Department of Environmental Quality for a brownfields cleanup grant. Petroleum grant funds will be used to clean up the Pullman Industries property at 40677 County Road 388 in Bloomingdale Township. The cleanup site was formerly an oil refinery, manufacturing company, and storage facility, and is contaminated with petroleum. Grant funds also will be used to treat groundwater.
